Syllabus

I. Ancient Art History: Students will study over 30 works of art from ancient civilizations in Egypt, China, South America, Israel, Greece, Rome, Mesopotamia, India and Europe.

II. Art Projects: Each week students will reproduce a piece of art (or a portion of a piece of art) that they have studied in a variety of media.

III. Geography: Each week we will study geography by using puzzles, games and stories. Students will also learn to draw, from memory, all of the countries on the continent of the Middle East (first semester) and Africa or Asia (second semester).

IV. Mathematics: Students will learn about the lives of fifteen great mathematicians in history, play games related to their stories and complete a craft. There may be alternate readings for a class with younger kids.

V. Ancient Literature: In class we will read classic works of literature from the civilizations we are studying.
